Hi, I'm Lila Rees and I own Rock City Tattoo in Barre, Vermont. I opened my private studio in 2008 and I've been a licensed tattoo artist since 2005. I work in many styles of tattoo; black and grey realism, illustrative, traditional/neo traditional and ornamental to name a few. Since I am the sole artist, I have tried to learn the techniques and aesthetic of multiple styles to better accommodate my clients requests. I find it also keeps work interesting.

I began my career in a typical "street shop", in 2003, after spending a lot of time there working on my own tattoo collection. My tattoo artist eventually offered me an apprenticeship as a "Permanent Cosmetic" tattooer. I was working full time for a cosmetics company at the time. I initially said "no", but later changed my mind. I trained in New York for permanent cosmetic tattooing, but when I got back home to Vermont, the demand was low. I realized very quickly that I needed to do regular tattoos if I wanted to be of use in the shop. 17 years later, here I am.

Recently, I was forced to close for two months

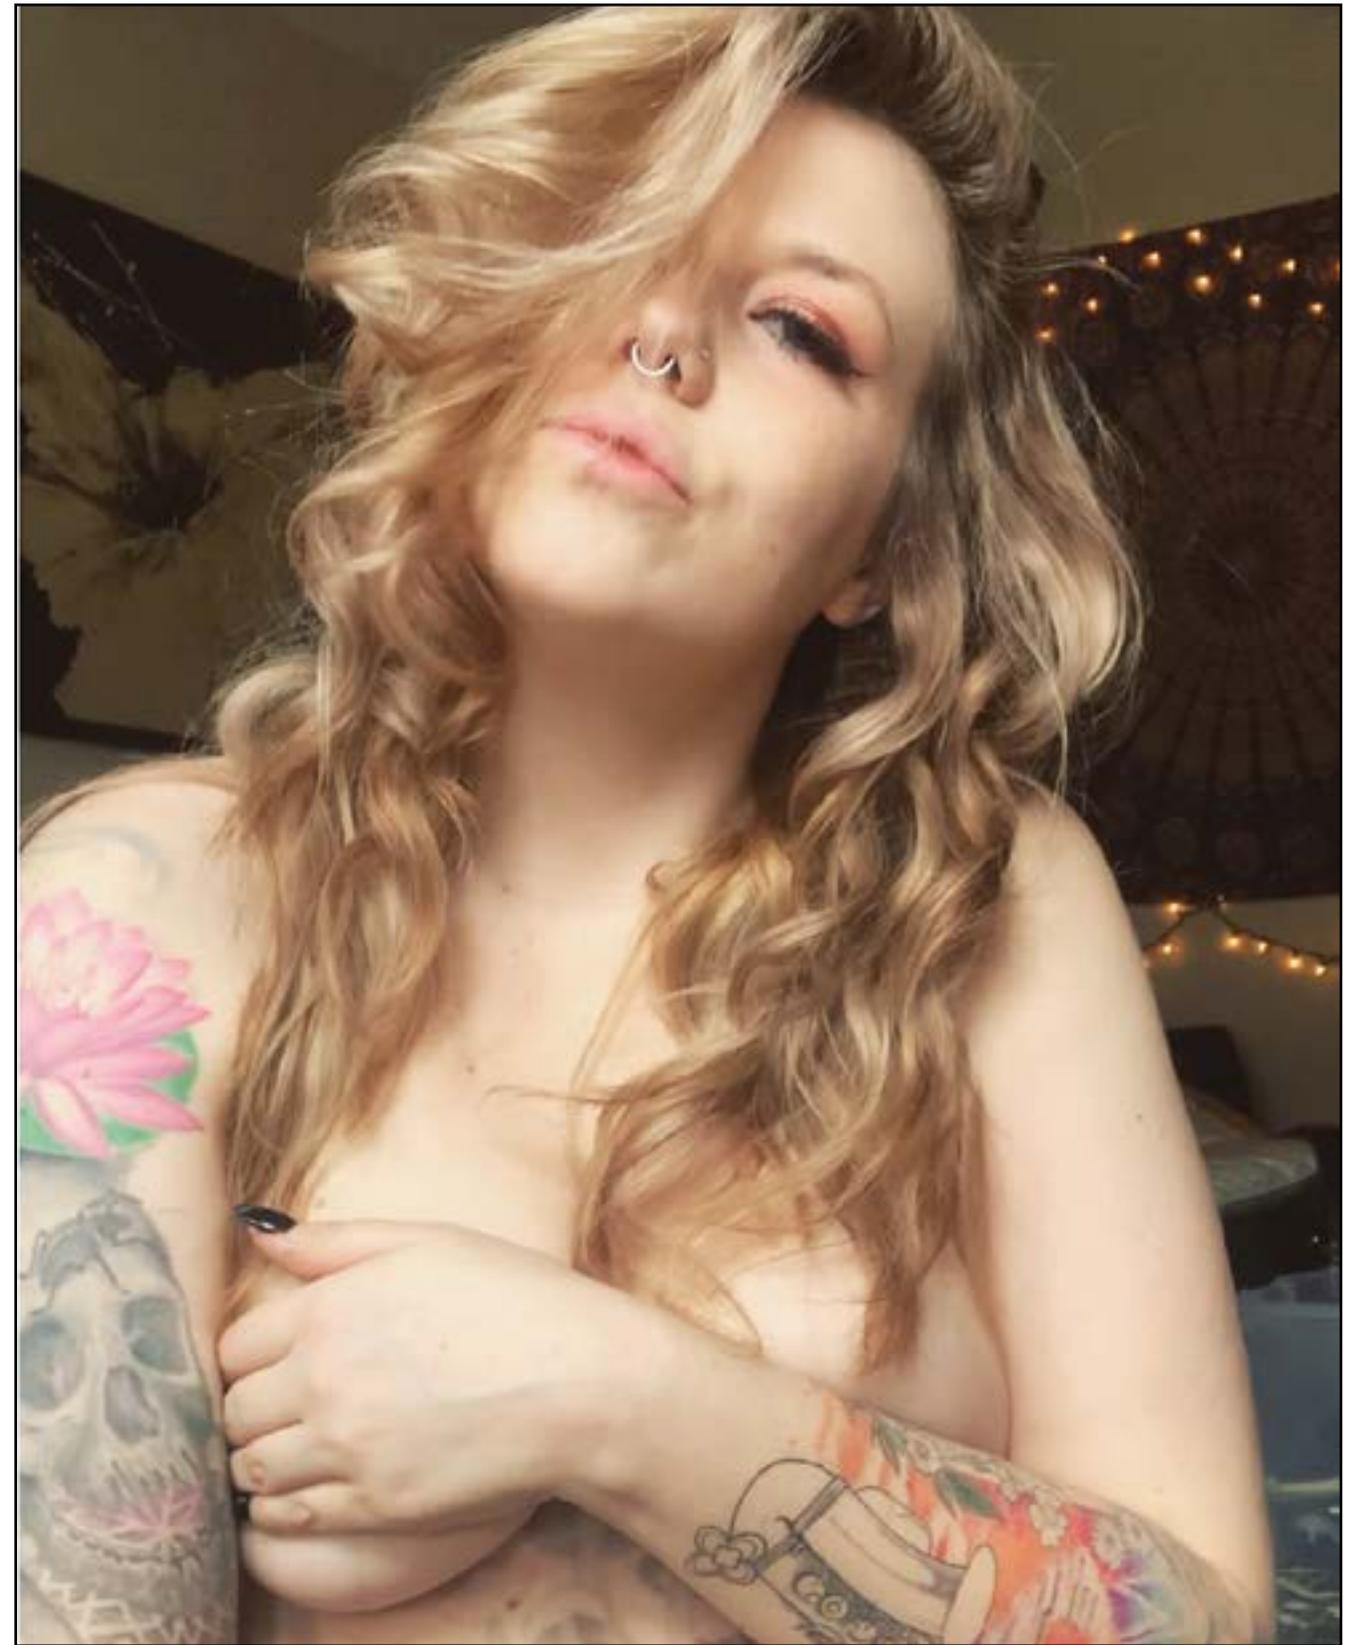

during the Covid-19 pandemic, but it gave me time to rethink my approach to tattooing. I was feeling a bit of burn out at work, so I decided that I would become entirely art focused and concentrate on large scale custom tattooing. I really wanted to grow as an artist. I was nervous that I might lose business, but I found that I started attracting clientele that was seeking out what I am offering.

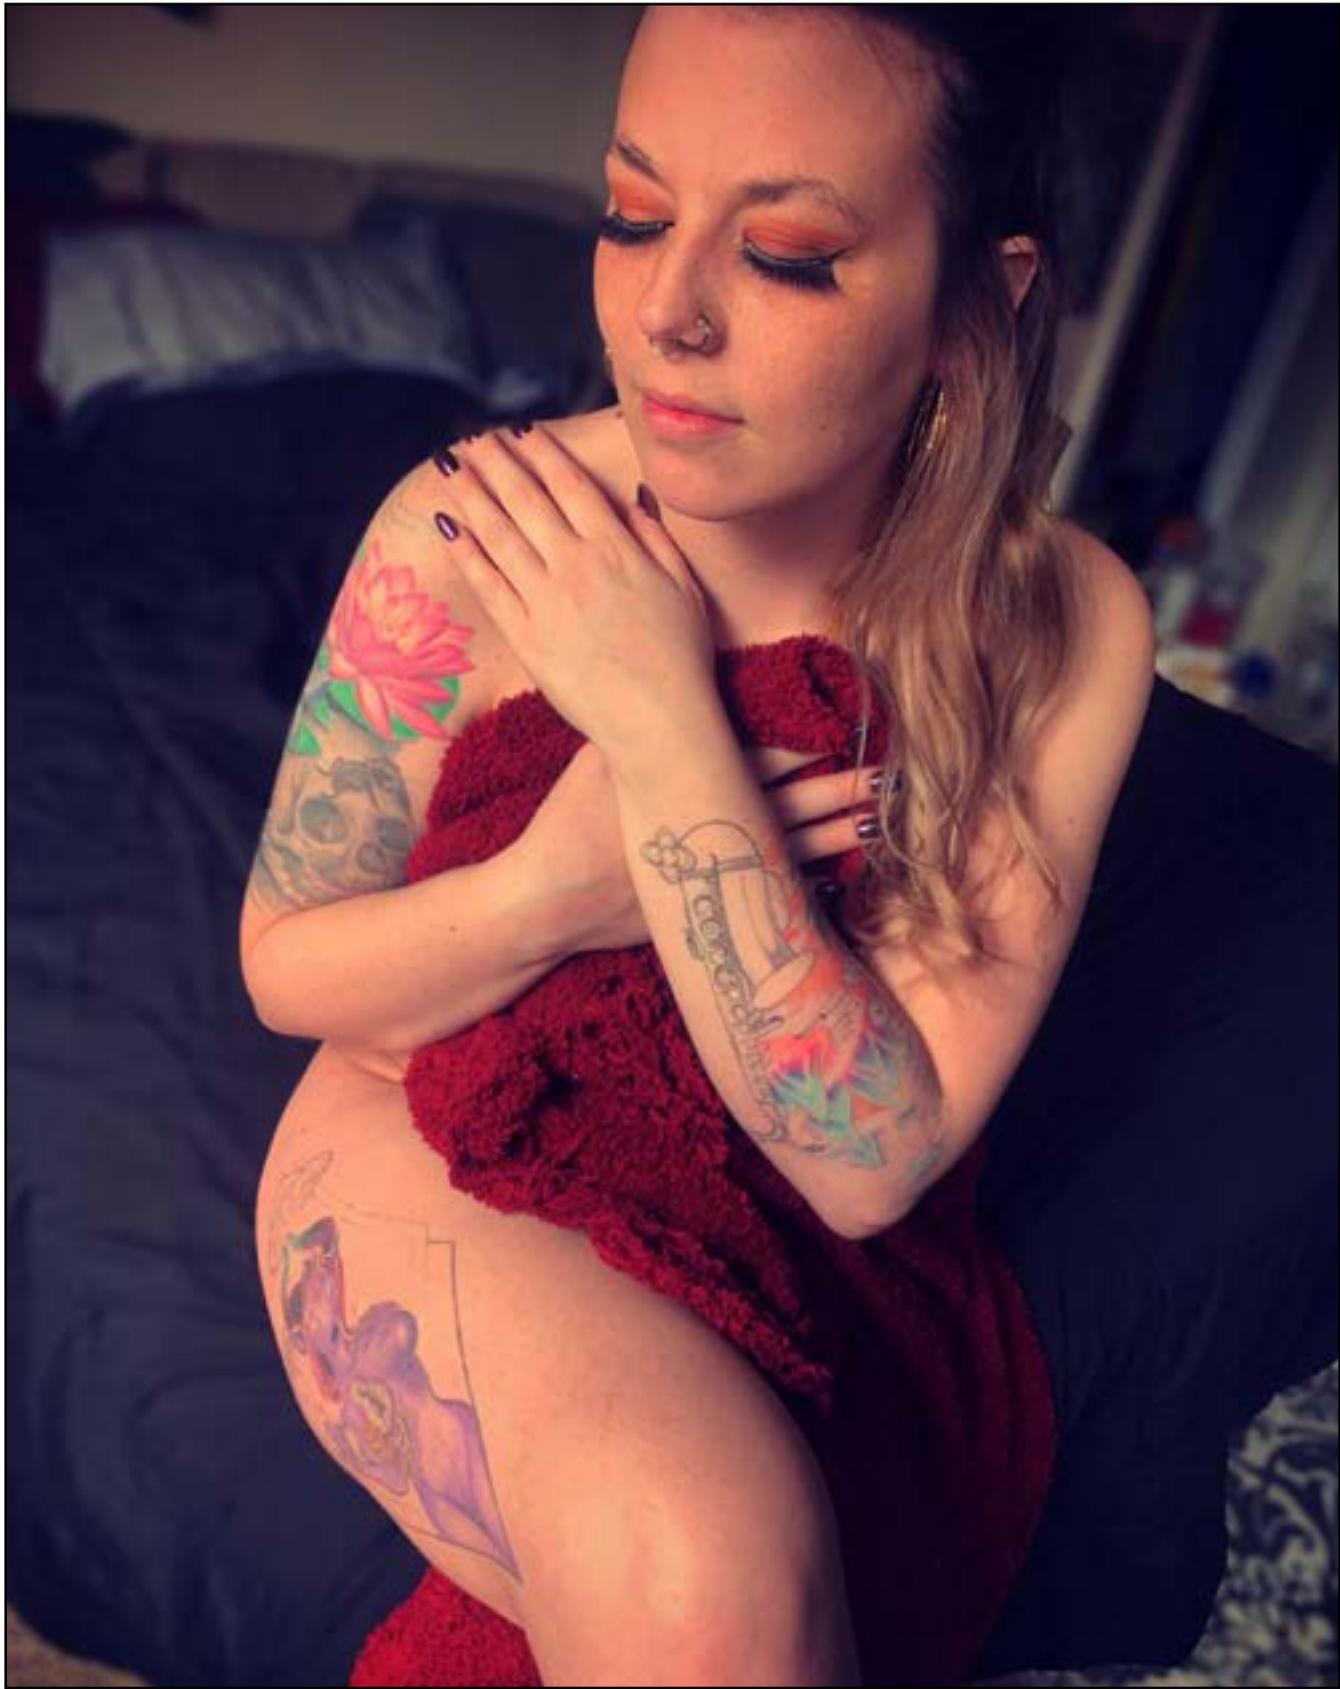

When I am not tattooing I enjoy oil painting, sculpting and working with other mediums to find inspiration that I can apply later to my tattoos. In the "before" times, I traveled extensively and visited many fine art and natural history museums. My studio serves as my own art gallery and my little natural history museum, as I have over 150 taxidermy mounts, wet specimens and bone collections. I also enjoy motorcycling in the warmer months (I have a street and dirt bike). I've also dabbled in "tattoo modeling".

Hi there. I'm Katelyn, Katie for short, I'm 27, and finally believing big dreams can come true, my story and why I'm finally doing this? I recently found out I have cancer in my cervix and my Uterus is mis shaped, I have endometriosis with a bunch of other things wrong, so I would love to see a fertility specialist so hopefully one day I can make a mini me. Or save for adoption; So here I am with the crazy wild dream to be a model or photographed in a magazine. My goal one day. I want to start an apprenticeship to be Piercer, along with my aspiring model. I've never been the pretty girl, or popular so to even put myself out there has been huge for my self love and confidence. I have been sick for months in months, lost of job, friendships, to get any help in this hard time would make me even more grateful. When I say help, I mean to get my story out! 2020 was hard as we all know. I lost 8 people. Two uncles and two bestfriends a couple childhood/ home town friends. In February I was sexually assaulted, and too afraid to

say anything, a lot of friends and family didn't Believe it I had to say or take it seriously, regardless SPEAK UP. When I finally put my words out there, the guy had three other open cases against him. Grief is hard. It's hard not to blame ourselves, Feel guilty and remember to forget the Trumatic things that happen to us. I do feel like the real goal in life is to figure out how to be happy because bad things are gonna happen and how we deal with it and react is what makes us grow. I still have nightmares I'm still scared. But girl or guy we had to stand together because Sexual assault and death happen and to feel alone, After feeling defeated it is worst feeling of them all. I had such high hopes for 2021 just to lead into it finding out all this news of cancer that flipped my world around. This is why I wanna Chase my dreams life is so short and I just wanna be happy. I also would like to support anyone doing through grief, Depression, and suicide. Talk about your feelings and take care of your body we are so fragile.

Katlin Parenteau

Katlin Parenteau is a 28 year old fifth generation Vermonter. She spends her time as a tattoo artist at her shop in Northern Vermont: Live Iron Tattoo. It is the most Northern Tattoo shop in Vermont; it sits less than two miles from the Canadian border. Her specialty is large tattoos that are custom designed. In her free time Katlin races downhill mountain bikes.

She was born and raised in the Northeast Kingdom and furthered her education in Vermont. Art sparked an interest from a young age and Katlin sold her first piece at the age of 14 in Stansted, Quebec. Her art can currently be viewed at Rock Art Brewery in Morrisville VT.

After completing her Associates of Art she moved back home to snowboard and work full time at Jay peak while continuing her Bachelor's degree from Johnson state college (now Northern Vermont University). In 2016 she graduated with a Bachelor's Degree in the Professional Studies of Fine arts and Arts in Society. She opened her tattoo shop and art gallery while completing her final year at JSC, after leaving Jay Peak.

I have now been successfully operating Live Iron

Tattoo (previously Contour Studios) for almost seven years. During that time she has held (and continues to curate) art shows for local artists while providing quality body art for countless professionals in the community. I have been able to donate thousands of dollars to charities and institutions that benefit the community. Some of these organizations are : Cruzin for Cancer, The NCH Oncology Department, the Vermont Mountain Bike Association and the Eli Goss memorial scholarship ice fishing tournament.

Katlin's Tattooing style is unique. It is all about creating a custom and meaningful tattoo that is beautiful. Ensuring that the contour of the image and design flows with the body to compliment the shape. She uses a rotary and will try to convince you to "go bigger". Creating depth in the image is key, also utilizing the space to its fullest potential. It's not just about how the tattoo looks, it's about how it looks on your body in the space it rests.

I know this was mentioned but ; In Katlin's free time she races downhill mountain bikes across the country. Check out her bike instagram to see her doing unsafe things @mountainbiker_katlin_vt

Mariah McCane

Hey you! My name is Mariah. I'm a free lance model based out of upstate NY. But, my first job is mama. I have a beautiful daughter and a handsome little boy that are my entire world.

I started this journey 6 years ago as a hair model, just for fun. I thought it would be cool to get my hair spiced up and walk down the runway. Little did I know, my passion for modeling began there. My passion however did not include hair modeling, it quickly took a turn. While I never forgot where I started, I couldn't wait to get off that runway and just pose in front of the camera. I love working

with different photographers coming up with new and creative ways to shoot. Each and every photographer has their own eye, and I love to collaborate with that to make a beautiful photo.

My biggest goal in life is to be the best person I can be and to pass these traits onto others. My children especially. I aim to show them the world is theirs.

If you want it, take it!

Who helps me feel comfortable and confident with my body. I have many health problems, and to still be able to model and have these opportunities is truly amazing! If you put your

mind and effort into things and support the people around you, you will have great things happen. The support that my husband and family give is out of this world. My goal is to keep positive vibes going and show that just have fun and be kind.
