Albert Rosal

My name is Albert Rosal ,my dreams and goals have always been to be able to make a career out of my passion which is art in particular tattooing, over the years of traveling and doing many tattoo conventions I've collected over 20 awards. For me the biggest challenge has been to find a balance between tattooing and my personal life since tattooing takes up most of my time if I'm not tattooing I'm drawing or painting.

My name is AJ. I've been in the fitness industry for about 5 years now as a certified personal trainer and bodybuilder and a model. I have my first bodybuilding competition coming up in August that I've been prepping for a year for. My goal is to qualify and obtain my pro card to compete at a high level and one day grace the stage of Mr. Olympia.

A photograph of Ashley Velasquez, a woman with dark, wavy hair, wearing a black lace top. She is lying down, and her arms are visible, showing several tattoos including a skull, a butterfly, and floral designs. She is looking towards the camera with a neutral expression. The background is a light-colored, draped fabric.

My dream in life is to be a positive role model for younger generation. Really never say down and thought about it but I do focus on achieving anything I start and modeling has just begun. My challenges is to overcome my fears.

I also love to do casting and would like to tame this artistic side of my personality. I am a woman of passion and I want to find a job that fulfills me and pushes my personal development further.

I have done figuration casting and would love to do more! In the meantime, I'm gaining experience with photo shoots acting emotions or characters. I would love to joint both of my passion, actress and combat sports. So i want to be a stuntwoman !!

I am an MMA fighter in Quebec City. I love training and competing but I like to think that I am not just an athlete. I work hard to set an example for kids, to promote physical activity and respect. I also aim to give women the skills and confidence to stand up for themselves against any aggression.

" Hi there! I am Marie, 31 years old, from Paris

What are my dreams?

As long as i remember i always dreamt of a cosmopolite life, working a job i am made for, and enjoying all the city has to offer with my friends!

Traveling every opportunity i got, i am from spanish/jewish blood and that just makes me wide open to discovering the World, its diversity of cultures and of course its people.

Always learning new things, everyday, either external or internal (getting a step forward on my self-reflection to fully understand my mecanisms & listen to my needs) that makes me feel alive and in constant evolution to my better self, which i am in constant craving for!

You noticed I didn't speak about love, well, in my dreams i meet my soulmate, we build a team together, and a life of trust & joy, either being the two of us or a whole family of ours. He has to be wild, curious, and a hopeless romantic as i am, with true & sincere values as honesty and devotion.

What i am the most proud of?

I am a self-made-woman. A fighter. A survivor. A leader.

Life hasn't always been kind to me, but i learnt, i healed, i got back on my feet, ready for the next fight. Last year has been the worst of my life, everything collasped under me, but i moved my world around and now i am on my most promisind position, daring to go chase my dream: create an authentic & shoppers oriented retail website for skincare & fashion, based on sustainable and truly efficient products.

Plus, i am super proud of being a great friend for my tribe. They're my family.

What are my upcoming challenges?

Spare money and keep studying on the dermatology to make my company dream come true for the professional part.

Move back to Toulouse (my favorite city in France, and definitely the most spanish one), buy a flat, and find my one true love, my partner in crime to live to the fullest and share everything with. "

With black solid tattoos: Chilean tattoo artist wants to take over the world.

Juan Pablo Mejias is a Chilean tattoo artist and designer who has been in the industry for more than 10 years.

His specialty are black solid tattoos; his technique is based on trying to emulate organic moves and textures from nature (water, fire, smoke, steam, electricity, etc) and print them in the most natural way possible to any part of the body. Mejias has preference in big scale works.

When talking about his goals as a tattooist, he would like to "be able to meet and share with tattoo artist whom were my referents as a kid, to learn and keep learning, my biggest wish is to grow alongside this profession, that is so fascinating", he said. Some of his inspiring artists are Anrij Straume, Félix Seele, Gakkinx, David Jorquera, Oscar Conejero, Daaamnj, among others, because of "the way they use the space and because of the ideas they come up with at the moment of facing the design challenge.

In the past 10 years, he has been working as a tattoo artist not only in Chile, but in many countries: Spain, Germany, United Kingdom, England and USA. Now, he would like to specialize in the USA and South Korea, because of the art these countries do: "Aesthetically they are opposite poles but just as interesting as how art is. For the new generations of tattoo artists, Juan Pablo suggests "lots of patience, hard work, learn how to manage frustration and don't let hard feelings to stop you from pursuit your goals".

My name is Kevin Bradley Jr, and I own Sea of Ink Tattoo Studio in Mesa, Arizona with my wife. First and foremost, I'm thankful to be a Tattoo Artist where I can express and use my skills as an Artist. I always knew that I would pursue a career that would involve art. With over ten years of tattooing, I have been able to experience every type of genre, but I really enjoy doing fun pieces that involve color and a bit of a WOW factor. I have achieved a

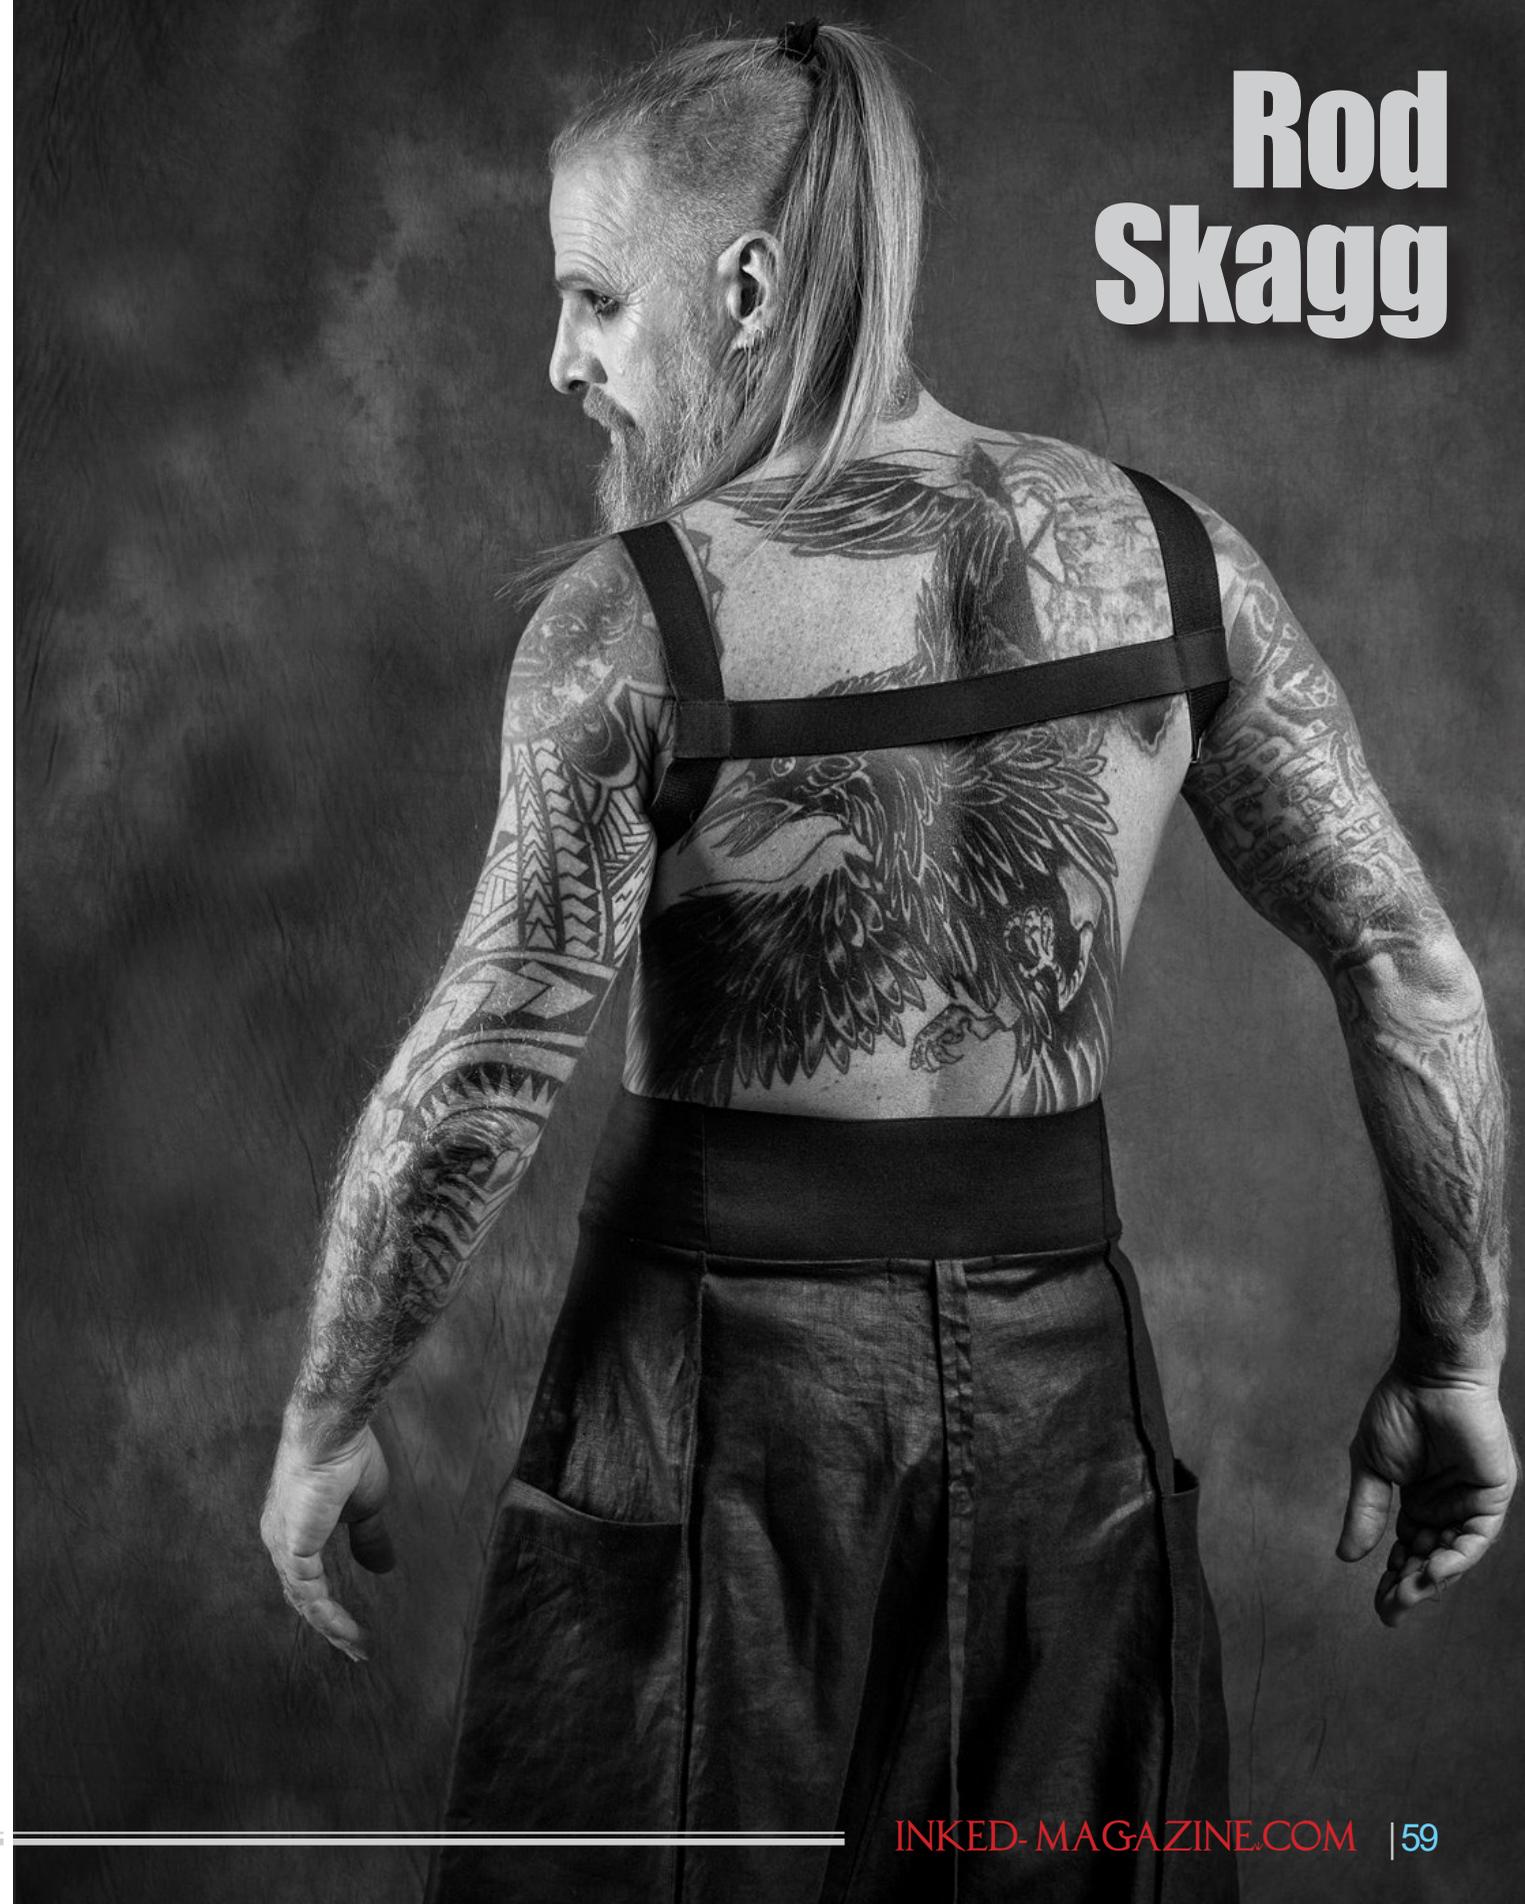

great level of success, by staying true to myself, by understanding that Tattooing is a lifelong learning process, which I plan to do perpetually. I have many different goals but if I had to pinpoint one, it would be to make my place in this industry by bringing a person's/people's vision to life and to continue to have fun while doing it!
