My name is Albert Rosal ,my dreams and goals have always been to be able to make a career out of my passion which is art in particular tattooing, over the years of traveling and doing many tattoo conventions I've collected over 20 awards. For me the biggest challenge has been to find a balance

between tattooing and my personal life since tattooing takes up most of my time if I'm not tattooing I'm drawing or painting.

My dreams are to travel the world, spreading love & peace to those who deeply seek it. My goal is to experience the many ways of life within the different cultures- being able to learn many languages, & cleanse my heart & soul, finally being at peace. The power to educate my children as well as other children who struggle to discover their true selves & their true purpose.

I have overcome the overwhelming darkness, who's mission will always be to destroy life itself. Friends & family whom I've lost to death along the

way. Bigots & bullies who are constantly tearing each other down.

A consistent challenge I will face everyday is my own mind & the impurities of our world...in which I hope & pray I make it through.. each & every day is a challenge..but I become stronger than I was the day before.

Always learning new things, everyday, either external or internal (getting a step forward on my self-reflection to fully understand my mechanisms & listen to my needs) that makes me feel alive and in constant evolution to my better self, which i am in constant craving for!

You noticed I didn't speak about love, well, in my dreams i meet my soulmate, we build a team together, and a life of trust & joy, either being the two of us or a whole family of ours. He has to be wild, curious, and a hopeless romantic as i am, with true & sincere values as honesty and devotion.

What i am the most proud of?

I am a self-made-woman. A fighter. A survivor. A leader.

Life hasn't always been kind to me, but i learnt, i healed, i got back on my feet, ready for the next fight. Last year has been the worst of my life, everything collapsed under me, but i moved my world around and now i am on my most promising position, daring to go chase my dream: create an authentic & shoppers oriented retail website for skincare & fashion, based on sustainable and truly efficient products.

Plus, i am super proud of being a great friend for my tribe. They're my family.

What are my upcoming challenges?

Spare money and keep studying on the dermatology to make my company dream come true for the professional part.

Move back to Toulouse (my favorite city in France, and definitely the most spanish one), buy a flat, and find my one true love, my partner in crime to live to the fullest and share everything with. "

My name is Iesha Salinas, proud owner of Salinas Studio. I am a mother, wife, and photographer. Photography has always been apart of my life, but I was always in front of the camera, and that was safe place, it made me feel empowered and strong. Now I feel it's my time to return to favor to those who book with me. Photography for me is much more than just clicking a button. It's capturing the raw emotions, bringing out the best from that person and making them feel empowered!
